# About us

**Global Vision** is a fully integrated real estate development & asset management platform, focused on sustainability and implementation of customized solutions.

We develop, manage, lease, and invest in modern building stock logistics, industrial, retail, office, and residential facilities aligned to high quality standards, as our goal is to have a long-lasting positive impact in the communities where we are present.

**We are currently active and provide a complete array of real estate services, construction, development, and asset management on the Romanian market, with development experience and interests at CEE level, in countries such as Slovenia and Slovakia.**

# Sustainable real estate services covering the full lifecycle of assets

---

We aspire to improve the life and support the growth of local communities by investing in sustainable real estate projects, for a future to share.

We are committed to building outstanding future-solid real estate across all sectors and at any scale, to support setting up strong business communities, as the core for durable progress.

We invest in resourceful locations that offer versatile potential for development, with good access ways, or where upcoming infrastructure projects are to be delivered in the near future, thus propelling the sites and opening the area for durable growth.

## 1. Property Development

Our involvement can begin in every phase of the property development process, or we can take full charge and coordinate the entire project right from conception stage, thus ensuring a smooth and integrated experience.

## 2. Building Construction

We act as a general contractor in the commercial and residential construction industry, and we provide customized services covering a wide range of projects.

## 3. Asset & Property Management

Our approach is focused on optimizing the use over the lifespan of a property, both from the perspective of the owner and the end-user.

Contact us to find out more about our services, areas of interest and how we can collaborate.
